CRENSHAW COUNTY COMMISSION COVID 19 RECOMMENDATIONS:

The Alabama Department of Public Health (as of March 17) has not yet ordered restrictions in the the State other than in North Alabama. However, they strongly recommend that people statewide take steps to limit the spread. Those include:

- No mass gatherings of 50 persons or more, or gatherings of any size that cannot maintain a consistent six-foot distance between participants. This may include festivals, parades, assemblies, or sporting events.
- Senior adults or those with chronic health problems should avoid gatherings (outside of close family) of 10 or more persons, and should avoid travel by air, train or bus.
- For retail businesses, including restaurants, limit patronage at any one time to 50% of the normally allowable capacity. Restaurants should maintain a six-foot distance between tables.
- Public buildings should consider whether visitation may be limited. Hospitals, nursing homes and assisted living facilities are encouraged to implement visitation policies that protect vulnerable persons.
- All persons should consider whether out-of-state travel plans may be delayed or canceled.
- Participants in religious services or events, weddings, funerals, and family events should exercise prudence and maintain consistent six-foot distance between participants if possible.

For individuals and families, wash your hands, avoid crowds, and in public maintain a six-foot distance from others. Work from home if possible, and, if sick, stay home.

If You Feel You Need Testing for the Virus

If you suspect you have contracted COVID-19 and are experiencing symptoms, the Alabama Department of Health asks that you contact your health care provider to arrange for testing.

For those without a regular provider, call **1-888-264-2256** to find out about testing in your area.
